FROM AND TO CANADA AND MEXICO BY TRUCK

DOE/FE ORDER NO. 3333

SEPTEMBER 12, 2013

I. DESCRIPTION OF REQUEST

On August 21, 2013, EDF Trading North America, LLC (EDF Trading) filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE), under section 3 of the Natural Gas Act (NGA),¹ for blanket authorization to import and export liquefied natural gas (LNG) from and to Canada and Mexico by truck, up to a combined total of the equivalent of 1,200 billion cubic feet (Bcf) of natural gas. The applicant requests the authorization be granted for a two-year term beginning on October 5, 2013.² EDF Trading is a Texas limited liability company with its principal place of business in Houston, Texas.

II. FINDING

The application has been evaluated to determine if the proposed import and/or export arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import and export of natural gas, including LNG, from and to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest and applications for such imports and exports must be granted without modification or delay. The authorization sought by EDF Trading to import and export LNG from and to Canada and Mexico by truck, nations with which free trade agreements are in effect, meets the section 3(c) criteria and, therefore, is consistent with the public interest. This Order authorizes transactions with terms of no longer than two years.

¹ The authority to regulate the imports and exports of natural gas, including liquefied natural gas, under section 3 of the NGA (15 U.S.C. §717b) has been delegated to the Assistant Secretary for FE in Redelelegation Order No. 00-002.04E issued on April 29, 2011.

² EDF Trading's blanket authorization to import and export natural gas from and to Canada and Mexico, to import LNG from Canada and Mexico by truck, to export LNG to Canada and Mexico by vessel and truck, to import LNG from various international sources by vessel, and vacating prior authorization, granted in DOE/FE Order No. 3013 on September 14, 2011, extends through October 4, 2013.
